NG GEMEENTE KOPPIES- WELTEVREDE PAASKONFERENSIE 2019

TEMA: Ek roem in die kruis
PREDIKERS: Ds. Piet du Toit en Ds. Bernard
SANGDIENS: Oscar Ehrensperger
WAAR: NGK Koppies-Weltevrede
WANNEER: 19 - 21 April 2019

Kontak Linda Beukes, *weeksaes*
08:00 - 12:00 by 056 777 1762
Of E-pos: ngweltevrede@carfone.net

Etes kan bespreek word: Koffie en beskuit gratis, Middagete R30 en Aandete R20.
Bespreek asseblief voor of op 5 April 2019
Indien vroegtydig bespreek word kan gratis verblyf by gemeentelede gereël word of u kan u eie verblyf reël op u eie onkoste.
E-pos adres is: ngweltevrede@carfone.net

ROLSTOEL PROJIEK

Kom help ons om "bread tags" in te samel, vir elke 350 kg word 5 rolstoel geskenk aan behoeftiges. Daar is 'n houer in Herald Office National winkel. As almal saamwerk word dié 350kg gou-gou ingesamel.

AANDAG Indien u enige REGS-ADVERTENSIE of ANDER ADVERTENSIE per epos of faks stuur, maak asseblief seker dat u 'n ONTVANGS-ERKENNING kry om enige probleme vroegtydig uit die weg te ruim.

Public Notice Application for the Trial Release of genetically modified soybean

Dow AgroSciences Southern Africa (Pty) Ltd, 272 West Avenue, Lakefield Building A Centurion, 0046, hereby informs the public about its intention to submit applications for the intentional introduction (conduct trial release) of two genetically modified soybean events into the South African environment. The applications are for DAS-81419-2 x DAS-44406-6 and DAS-44406-6 soybean events.

The aim of the proposed trials is to conduct environmental safety evaluations, determine agronomic equivalency and trait efficacy of the above soybean events when planted under South African conditions.

DAS-81419-2 x DAS-44406-6 soybean was produced by conventional breeding methods between the progeny of two genetically modified soybean events namely: DAS-81419-2 and DAS-44406-6. DAS-81419-2 soybean was produced using Agrobacterium-mediated transformation of soybean cells using plasmid pDAB9582, resulting in the insertion of three gene cassettes containing the cry1Fv3, cry1Ac(synpro) and pat genes in soybean genome. DAS-44406-6 soybean was produced using Agrobacterium-mediated transformation of soybean using plasmid pDAB8264, resulting in the insertion of three gene cassettes containing the 2mepsps, aad-12 and pat genes in soybean genome.

As a result of the above transformations, DAS-81419-2 x DAS-44406-6 soybean expresses Cry1F and Cry1Ac proteins which confer protection against certain lepidopteran soybean pests. And both DAS-81419-2 x DAS-44406-6 and DAS-44406-6 soybeans express PAT, 2mEPSPS and AAD-12 proteins which confer tolerance to glufosinate-ammonium, glyphosate and 2,4-D herbicides, respectively.

The trial release is proposed to occur at the following areas: Brits, Brondal, Carolina, Delmas, Frankfort, Greytown, Groblersdal, Koppies, Koster, Letsitele, Potchefstroom, Pretoria, Rayton, Reitz, Rustenburg, Schoemanskloof, Merrivale, Nelspruit, Olifantsfontein, Tarlton, Thabazimbi, Ventersdorp, Wesselsbron, White River, and Winterton. The trials will be laid out in approximately 0.5 to 1.0 hectare fields and positioned as stipulated in the guidelines, in order to be in compliance with all required conditions.

Exposure to the environment outside the experimental sites and other soybean crops will be avoided through both physical measures as well as spatial isolation. Upon harvesting of the trials, all resulting seed along with plant material remaining in the field will be destroyed in compliance with the GMO Act, 15 of 1997. The trial site will be monitored through the next growing season for volunteer soybean plants. Volunteers will be destroyed before flowering by mechanical tillage or appropriate herbicide application.

All interested parties should submit comments or objections, in connection with the intended release, in writing to: The Registrar: Genetically Modified Organisms Act, Private Bag X973 Pretoria 0001. Fax No: 012 319 6298
E-mail: GMOAppComments@daff.gov.za

All comments or objections must be received within 30 days from publication of this notice.
